### Professional Overview

Full Stack Developer with one year of experience in modern web technologies like React.js, Node.js, Express.js, and MongoDB. Skilled in developing user-friendly and scalable web applications through teamwork and creativity. Passionate about learning new technologies and contributing to innovative projects in dynamic environments.

### Skills

**Frontend Technologies:** React.js, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS

**Backend Technologies:** Node.js, Express.js, RESTful API Development

**Databases:** MongoDB

**Version Control:** Git, GitHub

### Experience

#### Full Stack Developer

July 2024 – Present

*P\_Tap Technology*

*Tools Used: ReactJS, NodeJS, ExpressJS, MongoDB, REST APIs*

- Developed and maintained dynamic web applications using **ReactJS** for frontend and **NodeJS/ExpressJS** for backend, improving user experience and performance.
- Designed and managed **MongoDB databases**, implementing efficient schemas and queries to handle large-scale data.
- Integrated **RESTful APIs** and third-party services to extend application functionality.
- Worked on AI-powered features for web applications, enhancing task automation and user personalization.
- Collaborated in an Agile team with code reviews, testing, and deployment, ensuring scalable and maintainable solutions.

### Projects

#### AI-Powered Task Manager | *ReactJS, NodeJS, MongoDB, AI*

July 2024 – September 2024

- Built a task management app that uses AI to suggest task priorities and deadlines.
- Developed frontend with **ReactJS** and backend APIs with **NodeJS/ExpressJS**.
- Stored and managed tasks efficiently in **MongoDB** and implemented real-time updates.

#### Smart E-Commerce Dashboard | *ReactJS, NodeJS, MongoDB, AI*

October 2024 – December 2024

- Created an admin dashboard for an online store with AI-powered sales predictions.
- Connected frontend and backend using **REST APIs** for real-time analytics.
- Used AI to recommend products based on customer behavior patterns.

#### AI Chat Support Web App | *ReactJS, NodeJS, ExpressJS, MongoDB, AI*

January 2025 – March 2025

- Developed a web-based chat support system integrated with AI for automated responses.
- Implemented real-time messaging and user management using **MongoDB** and **NodeJS**.
- Frontend developed with **ReactJS** for smooth and responsive UI.

### Achievements & Languages

- **Academic Project Recognition:** Secured **2nd place** at college-level competition for developing an **AI-based deep fake video detection** system.
- **Competitive Coding:** Participated at **National level** in Hackerrank coding challenges during 3rd year of college, demonstrating problem-solving and programming skills.
- **Languages:** Fluent in English, Kannada, and Hindi.

### Education

#### B.E. Information Science Engineering

*Agdi College, Karnataka*

**Graduated: 2024**

*CGPA: 8.0/ 10*
